If you suspect your IBD patient has lost response to infliximab or adalimumab:

Order PROMETHEUS® Anser™ IFX or PROMETHEUS® Anser™ ADA

In just 3 business days from receipt of the sample, you’ll know serum infliximab or adalimumab levels and whether your patient has developed antibodies to the drug.

As easy as 1-2-3

1. Complete a PROMETHEUS Anser Test Requisition Form and give the form to the patient. This is a NEW FORM to be used with these monitoring tests only. Do not use any other Prometheus blood draw order forms.

2. Make a copy of the patient’s insurance card and give the copy to the patient.

3. Visit www.anserifx.com or www.anserada.com to schedule an appointment with a mobile phlebotomist online or call 888-423-5227.

At the time of their appointment, patients should give the mobile phlebotomist the completed Test Requisition Form and a copy of their insurance card.
Prometheus will work with insurance companies and advocate on behalf of your patients

For Prometheus monitoring tests (PROMETHEUS® Anser™ IFX and PROMETHEUS® Anser™ ADA), our goal is to assist you and your patients with insurance and financial barriers, so we offer the PROMETHEUS® Links™ Program. For patients with insurance, including Medicare, Prometheus will bill the patient’s insurance directly and PROMETHEUS Links will handle any questions or problems whenever possible. PROMETHEUS Links services include (if applicable):

1. Handling insurer requests for additional information.
2. Resubmission of rejected insurance claims and appeal of denied claims, whenever possible.
3. Financial assistance for PROMETHEUS Anser IFX and PROMETHEUS Anser ADA patients who have significant out-of-pocket balances and who meet certain income criteria. Please contact the Billing Department at 888-892-8391 for more information.
